DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1: figure 1.

Sub Species 1.1A: figure 6.

Sub Species 1.1B: figure 13.

Subspecies 1.2A: figure 25.

Subspecies 1.2B: figure 26.

Subspecies 1.2C: figure 27.

Species 2: figure 28.

Subspecies 2.1A: figure 30.

Sub Species 2.2B: figure 33.

Species 3: figure 35

Subspecies 3.1A: figure 41.

Sub Species 3.2B: figure 42.

Subspecies 3.3C: figure 43.

Subspecies 3.3D: figure 44.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species with single sub species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently no claims appear to be generic. An example of an

election, which complies with this requirement, could be species 1, sub species 1.1A and sub species 1.2B (i.e. figures 1, 6 and 26).

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
